Final FAR Complete.pdf

Steve,

The report with the TCLP data is the "Field Activities Report, Mine Entry" dated December 14, 2012. The report doesn't have the entire laboratory report, but does have the TCLP, pH, reactive sulfide and cyanide, and total metals results sheets from the lab report (Appendix D of the Field Activities Report). I'm attaching the report for your information. Let me know if you'd also like the original laboratory report.

Subject: R n B - old report - re Waste Disposal Data ?

Jan,

I am trying to locate the report that contained the TCLP data re the Precip solids disposal. You said you saw the data recently and I need to put it in the Admin Record – thought I did but now can't recall the correct report.

Also, I did find my PDF of the 4 Adit report from 8/27/12.

Thanks

Steven Way
